TO WHOM IT MAY CONCERN:

Please be advised that Bullard part numbers T3X and T3XE equally refer to a single manufactured thermal imager. There is no functional distinction or difference between a Bullard T3X and T3XE thermal imager. The "E" suffix refers to units produced for overseas export outside North America. The only variation between these part numbers when ordered are limited to:

- Temperature measurement readout in Celsius rather than Fahrenheit
- International power supply for the battery charger

Neither of these variations have any technical effect on the operation or function of the imager.

Please direct any questions or concerns to the undersigned.

Regards

A handwritten signature in black ink that reads "Adam Wetzel".

Adam Wetzel
