

ECL Comm Port Upgrade Notice

Dear Bullard Eclipse Customer,

Bullard takes great pride in leading the industry in the support and servicing of our thermal imager products and accessories. As of June 1, 2013, we completed a product upgrade to the power management board for all new Eclipse® Thermal Imagers. Your Eclipse Thermal Imager has also received this product upgrade and is now fully compatible with myBullard™, a comprehensive software control panel covering multiple Bullard Thermal Imagers and Accessories, including all features accessible in the Eclipse Control Panel. myBullard incorporates an improved design, a more powerful and intuitive interface, and more options for organizing and optimizing your thermal imagers and accessories. Please visit www.bullard.com/myBullard to download the myBullard software.

Please be advised of the following items regarding the product upgrade this Eclipse Thermal Imager received:

- * **You will now need to use the included red data cable in order to connect this Eclipse Thermal Imager to the myBullard control panel software.**
- * **The black data cable that you originally received is no longer compatible with this Eclipse Thermal Imager.**

Contact your authorized Bullard distributor or Bullard Customer Service (877-BULLARD) for details.
